

AquaPure™ I-200 Plus

Aquapure I-200 Plus is a liquid, ferrous based, cationic coagulant used in industrial wastewater treatment.

Aquapure I-200 Plus is used as a cost-effective coagulant for removing heavy metals such as zinc, nickel and chrome, while assisting in lowering fats, oils, and grease.

Aquapure I-200 Plus contains a de-emulsification package to assist with oil-bearing waste streams.

Aquapure I-200 Plus is an easy-to-use liquid product that is available in drums or totes. Contact an Aquapure Specialist to help determine the correct dosing for the wastewater system.

Features & Benefits
